When does the eSky customer receive a Blue Air boarding pass?

eSky customers who have purchased the online check-in service can provide the data needed for check-in before the airline's launching of the service. They can do this immediately after receiving an email from eSky, which contains a link to the secure form through which they can provide their data. Once online check in is launched, eSky will immediately carry out the complete process on behalf of the passenger and send the generated printable boarding passes to the e-mail address provided.
